Now he has released a video for Surf (ft Gunna), shot by a longtime collaborator Be EL Be, who manipulated the visuals for classic thug tracks like Check, Best Friend, and Givenchy. In the new video, Thug and Gunna ride mountain bikes and shoot women on a beach, timeless stuff. Before So Much Fun, Young Thug released a music video for The London starring J. Cole and Travis Scott. He also made an appearance on Malone's recent single post Goodbyes. So Much Fun is Thug's first solo project since Beautiful Thugger Girls, but he released an EP titled On The Rvn last year, with YSL's Compilation Slime Language. To promote this album, Thug sent our office a friendly snake named Digits, and sent other snakes to Noisey, Mass Appeal, and The FADER. Earlier today, Thug announced two pop-up events So Much Fun in New York (Wednesday, August 21) and L.A. (Thursday, August 22).
